

Rotary International PRESIDENT - 2018/2019

BARRY RASSIN

Rotary Club of East Nassua, New Providence, Bahamas

As president, Rassin aims to strengthen our public image and our use of digital tools to maximize Rotary's reach. "Those who know what good Rotary clubs do will want to be a part of it, and we must find new models for membership that allow all interested in our mission to participate," he says.

"With Rotary more in the public eye, we will attract more individuals who want to be part of and support a membership organization that accomplishes so much good around the world." Rassin earned an MBA in health and hospital administration from the University of Florida and is the first fellow of the American College of Healthcare Executives in the Bahamas. He recently retired after 37 years as president of Doctors Hospital Health System, where he continues to serve as an adviser. He is a lifetime member of the American Hospital Association and has served on several boards, including the Quality Council of the Bahamas, Health Education Council, and Employer's Confederation. A Rotarian since 1980, Rassin has served Rotary as director and is vice chair of The Rotary Foundation Board of Trustees. He was an RI training leader and the aide to 2015-16 RI President K.R. ROTARACT originally began as a Rotary International youth program in 1968 in Charlotte, North Carolina and has grown into a major Rotary-sponsored organization of over 9,500 clubs and 200,000 members spread around the world. It is a service, leadership, professional and community service organization for young men and women between the ages 18–30. Rotaract focuses on the development of young adults as leaders in their communities and workplaces. Clubs around the world also take part in international service projects, in a global effort to bring peace and international understanding to the world.

“Rotaract” stands for “Rotary in Action”. Most Rotaract activities take place at the club level. Rotaract clubs hold formal meetings, usually every two weeks, which feature speakers, special outings, social activities, discussions or visits to other clubs. Club members get together on designated days for service project work, social events, or professional/leadership development workshops.

The purpose of Rotaract is to provide an opportunity for young men and women to enhance the knowledge and skills that will assist them in personal development, to address the physical and social needs of their communities, and to promote better relations between all people worldwide through a framework of friendship and service.
